DALTON'S STORY

Dalton Levine graduated from Legend High School with honors in 2016, despite a nearly 2-year battle with adrenocortical carcinoma (ACC), a rare and aggressive cancer of the adrenal gland. He was freed from his fight on December 13, 2016, at age 18.

Inspired by Dalton's desire to do good for others, Dalton's parents, Gary and Karen, created Dalton's Moon Foundation. Sadly, Gary suddenly passed away seven months later. Karen is now carrying the mission forward with the support of family and friends.

To date, Dalton's Moon Foundation has raised and donated over \$75,000 to a variety of charities near and dear to Dalton's heart, especially the Oncology Department at Children's Hospital Colorado and for college scholarships for students at Legend High School and Ponderosa High School.

Too many young lives are touched by cancer. Thank you for your generosity and support.
